EDUCATION

American International University of Bangladesh

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering

2022 – 2026

- CGPA: 3.89
- Relevant coursework in Advanced Web Technologies, Advanced Programming with .NET

SKILLS

Technical: Full-stack Web Development, Object Oriented Programming, RESTful API Development, React.js, Next.js, NestJS, Node.js, .NET Development, PostgreSQL, Microsoft SQL Server

Tools: Git, GitHub, Postman, Visual Studio, Visual Studio Code, Trello, Canva

EXPERIENCE

Software Developer Intern

01/02/26-30/04/26

NeuroFlight Lab - Next.js, NestJS, PostgreSQL

- Contributed to the development and maintenance of production web applications, including NeuroFlight Lab Official Website and CMAB Management Platform, using Next.js, NestJS, and PostgreSQL.
- Developed responsive frontend interfaces using reusable React/Next.js components, improving UI consistency and user experience.
- Designed and implemented RESTful APIs for data handling and client-server communication.
- Worked with PostgreSQL for database schema design, queries, and integration with backend services.
- Collaborated with team members in an agile workflow, participating in regular code reviews and feature planning.
- Contributed to deployment setup and basic hosting configuration for project delivery.

PROJECTS

NeuroFlight Lab Official Website & Research Platform | *Next.js, NestJS, PostgreSQL* | [\[Backend\]](#) [\[Frontend\]](#)

- Developed and maintained the official website and backend services for NeuroFlight Lab using Next.js, NestJS, and PostgreSQL.
- Built responsive frontend interfaces, REST APIs, database integrations, and dynamic content management features.
- Collaborated remotely through regular meetings, task management, debugging, and feature implementation.
- Contributed to deployment, performance optimization, and full-stack application maintenance.

CMAB Management Platform | *Next.js, NestJS, PostgreSQL* | [\[Backend\]](#) [\[Frontend\]](#) [\[Live Link\]](#)

- Developed a full-stack organizational management platform with public and admin panels.
- Built secure REST APIs with JWT authentication, PostgreSQL integration, and file upload.
- Worked on responsive UI development, admin dashboard, CRUD operations, and production deployment workflows.

ACHIEVEMENTS

- Vice Captain of a university cricket team competing in a 24-team tournament, leading team coordination and on-field strategic decisions.
- Developed multiple **full-stack and backend web applications** using NodeJS, NestJS, Next.js, ReactJS, PostgreSQL, ASP.NET Core, and SQL Server.
