SUMMARY

Full-Stack Software Developer with professional experience building scalable web applications using Next.js, NestJS, TypeScript, and PostgreSQL. Experienced in multi-tenant SaaS architecture, RESTful APIs, real-time systems with Socket.IO, background processing with BullMQ/Redis, authentication, and third-party integrations. Focused on building maintainable, responsive, and performance-oriented software.

PROFESSIONAL EXPERIENCE

Junior Software Developer

May 2026 – Present

Neexzen | *Next.js, TypeScript, NestJS, PostgreSQL, Redis, BullMQ, Socket.IO, GSAP*

Dhaka, Bangladesh

- Developed scalable web applications and reusable frontend components using Next.js and TypeScript.
- Built RESTful APIs, authentication systems, SaaS features, and third-party integrations using NestJS and PostgreSQL.
- Implemented real-time features with Socket.IO and background processing using Redis and BullMQ.
- Engineered scroll-based animations with GSAP/ScrollTrigger and optimized web performance, reducing LCP by 27% and TBT by 86%.
- Contributed to debugging, performance optimization, production deployment, and ongoing product development.

Software Developer Intern

Feb 2026 – Apr 2026

NeuroFlight Lab | *Next.js, NestJS, PostgreSQL*

Dhaka, Bangladesh

- Developed responsive web interfaces using Next.js and React, integrating reusable UI components with backend APIs.
- Built RESTful APIs with NestJS and integrated PostgreSQL databases for company and management platforms.
- Contributed to end-to-end feature development, code reviews, and deployment workflows.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, C#, PHP

Frontend: Next.js, React.js, HTML, CSS, Tailwind CSS, GSAP, Framer Motion

Backend: Node.js, NestJS, ASP.NET Core, REST APIs, Prisma, Socket.IO

Databases & Queues: PostgreSQL, Redis, BullMQ, MySQL, SQL Server

Tools & DevOps: Git, GitHub, Docker, Postman, VS Code, Trello

SELECTED PROJECTS

Quikey – Multi-tenant SaaS E-commerce Platform | Ongoing — *Next.js, NestJS, PostgreSQL, Prisma, Redis, BullMQ* | [Live](#)

- Built a scalable multi-tenant backend using NestJS, Prisma, and PostgreSQL, with Redis and BullMQ for caching and background jobs.
- Developed dynamic multi-tenant routing with Next.js Middleware for merchant storefronts, dashboards, and admin controls across subdomains.
- Integrated bKash, Nagad, and SSLCommerz payments with B2B pricing, shipping, and tax management features.

Neexzen – Software Company Website | *Next.js, TypeScript, Tailwind CSS, GSAP* | [Live](#)

- Developed and launched the official software company website using Next.js, TypeScript, and Tailwind CSS with interactive UI components.
- Engineered complex scroll-based animations and interactive experiences using GSAP and ScrollTrigger.

Real-Time Service Request Management System | *NestJS, Next.js, PostgreSQL, BullMQ, Socket.IO, Docker* | [GitHub](#)

- Built a real-time request management platform with role-based access (Operator/Supervisor), using BullMQ and Redis for background processing and a Socket.IO gateway for live status updates.
- Implemented concurrency-safe supervisor approvals using PostgreSQL transactions and row locking, with JWT/RBAC protection and status-change audit logging.

CMAB Management Platform | *Next.js, NestJS, PostgreSQL* | [Backend](#) | [Frontend](#)

- Developed a full-stack organizational management platform with public and admin panels, JWT authentication, CRUD operations, PostgreSQL integration, and file upload management.

EDUCATION

Bachelor of Science in Computer Science and Engineering

2026

American International University-Bangladesh (AIUB)

Dhaka, Bangladesh

- CGPA: 3.89 / 4.00

ACHIEVEMENTS & LEADERSHIP

- Vice Captain of a university cricket team in a 24-team tournament, leading team coordination and on-field strategic decisions.
- Received multiple “Player of the Match” awards for individual performance.
